

For as little as \$25, you can buy a square foot of a home for a family in need.

WHO GETS A NEW HOME

We began by building homes for for single mothers struggling to keep their kids fed and in school. As more sponsors and volunteers came forward, we expanded our criteria and now build homes for families of all shapes and sizes.

While we provide a helping hand, the families "pay" for their homes with 500 hours of community service. Most go far beyond that by staying involved in helping other families realize the dream of a safe, secure, and dignified home.
